Shoes For Actives

Collection 2022

## Dear retail partners,

We have been producing our mountaineering boots for nine generations, and they are still our great passion.

It is a very long tradition that gives us and our employees pride. Every day, we do everything we can to carry on this tradition and develop our craft.

Growing up with nature, it was our father who instilled in us a strong awareness of nature. Our special concern for sustainability emerged from this tradition. In reference to this, we developed our logo with the green tree back in 1993.

We feel it is important to give you more information about our #MeindlEcoSteps. We take a holistic approach to this theme, which we have divided into nine areas. To find out more, please visit our website at [www.meindl.de/nachhaltigkeit](http://www.meindl.de/nachhaltigkeit). We will be updating this information regularly.

**Sustainability is more than just a goal – it is a path.** It is a path we constantly follow, which always leads us to new ideas and suggestions.

Our customers' needs are changing, and more and more people are enjoying nature and want to experience it. In particular, the desire for active experiences through hiking is on the rise. We have come up with many suitable innovations for this new collection.

When developing the catalogue, we incorporated your feedback from the past year, enlarged the images again and provided more information on the individual models. At the same time, we kept the basic structure. In the front section you will find the new products and from page 28 all models of the spring/summer 2022 collection.

Together with our employees, we are looking forward to presenting you the new collection and continuing our partnership with you in the coming season.

We would like to wish you a successful season and look forward to our ongoing and rewarding cooperation.

Heelcuff-Freeflex

Tonale Lady GTX

variofix®

### variofix® 3 System

The variofix® lacing system provides a perfect fit – and has proven itself over many years and been continually improved.

In the heel area, the variofix® system that runs around the heel provides good heel positioning. When lacing up, the free-running „Speed Wire“ is pulled in closely and evenly around the heel. This guarantees better support.

Using fine workmanship and soft materials, the styles in the SportOmed range by Meindl are based on the Comfort fit® shoe concept where special care is taken to ensure that there are no seams at the front of the foot. One special feature of the SportOmed shoes is the soft cushioning volume adjustment under the cork footbed, which allows for a high degree of individuality for adapting to orthopaedic insoles, but also offers the possibility of increasing the shoe's volume.

# MEINDL Sock – the intelligent interface between shoe and foot

Perfect fit with high wearing comfort is the credo of our sock collection.

They anatomically adapted to the foot of men, women and children. The ergonomic padding at the stress points with reinforcements are just in the toe and heel are arranged to make the sock even more durable. We use only high quality, innovative yarns and produce on the most modern knitting machines. Our socks have Ökotex 100 standard. Consciously we use many natural materials like merino wool and micromodal fibers. Modal is produced in Austria and consists of ecological cellulose. We deliberately avoid cotton, because among other things enormous amounts of water is needed in the extraction process. Our ergonomic socks fit perfectly to the foot. The different models are professionally adapted to the various climatic conditions.
